Hebatallah Ibrahim

Full-Stack Developer & Team Leader — PHP / Laravel · Node.js · React · Flutter

Phone: (+20) 115 768 6680 · Email: hebawalid1012@gmail.com · GitHub: github.com/hebatallahibrahim · LinkedIn: linkedin.com/in/heba-ibrahim-b4320b221

Professional Summary

Full-Stack Developer and Team Leader with 7+ years of experience building ERP and business management platforms, REST APIs and cross-platform mobile apps. Strong backend foundation in PHP/Laravel and Node.js, with modern frontends in React and TypeScript and mobile delivery in Flutter. Delivered live systems including an ERP platform, a water-well drilling project management system, an intelligent delivery dispatch platform, a project management and reporting system (CRS) for Baitulmaal, an international organization, and a Faculty Affairs System for the Faculty of Agriculture, Alexandria University. Experienced in modular architecture, role-based access, workflows and reporting, and in leading teams from requirements to production.

Technical Skills

- **Backend:** PHP, Laravel, Node.js (Express), RESTful APIs, Authentication & Authorization (Sanctum / JWT)
- **Frontend:** React, TypeScript, JavaScript (ES6+), jQuery, HTML5, CSS3, Bootstrap
- **Mobile:** Flutter (Dart) — cross-platform Android & iOS apps, API integration
- **ERP & Business Systems:** modular system design, role-based access control (RBAC), workflows & approvals, reporting dashboards
- **Databases:** MySQL, SQL, query optimization, database design
- **Architecture & Practices:** OOP, SOLID, Design Patterns, MVC, clean code, code review
- **Tools:** Git, GitHub, Postman, JSON
- **CMS & Other:** WordPress, mailing platforms
- **AI-Assisted Development:** GitHub Copilot, Cursor AI, Claude, ChatGPT

Work Experience

Full-Stack Developer Team Leader — OPDEV Agency

Feb 2025 – Present · UAE

- Lead the full-stack team building management platforms for international and academic clients.
- Delivered **CRS for Baitulmaal**, an international organization: a project management and reporting system.
- Delivered the **Faculty Affairs System** for the **Faculty of Agriculture, Alexandria University**, managing faculty staff records and academic affairs.
- Design modular Laravel and Node.js backends with role-based access control, approval workflows and reporting, with React dashboards and Flutter apps on the same REST APIs.
- Gather requirements with stakeholders, plan sprints and run code reviews.

Full-Stack Developer Team Leader — Sketch Technology

Aug 2023 – Jan 2025 · UAE

- Led a team of developers delivering full-stack web and mobile solutions for clients.
- Designed and maintained scalable architecture for web applications built with Laravel, Node.js and React.
- Developed and shipped cross-platform mobile applications with Flutter, integrated with backend APIs.
- Improved API performance and optimized application workflows.
- Worked with clients and stakeholders on technical planning, estimates and delivery.

Backend Developer — Handeal Groups

Jun 2021 – May 2023 · UAE

- Developed backend modules and services using PHP and Laravel.
- Integrated third-party APIs and optimized database queries for faster responses.
- Strengthened security, authentication and API reliability.
- Worked closely with frontend teams to ensure seamless integration.

Backend Developer — Power-Tech

Nov 2018 – Jun 2021 · Saudi Arabia

- Built backend services and internal tools with PHP.
- Designed scalable server-side logic and improved application performance.
- Maintained and upgraded existing applications.

Key Projects

- **ERP Platform — BlueField** · digital.blue-field.co
  - ERP system managing core business operations through integrated modules, role-based access and reporting dashboards.
- **Water-Well Drilling Project Management System** · waterwells.touristella.com
  - Tracks well-drilling projects from planning to completion, with progress monitoring and reports.
- **Intelligent Delivery Dispatch Platform — FleetSpeed** · Dashboard · Rider Portal
  - Dispatch dashboard for operations, a web portal for riders and a companion mobile app.
- **CRS — Baitulmaal (International Organization)** · baitulmaal.touristella.com
  - Project management and reporting system for an international organization.
- **Faculty Affairs System — Faculty of Agriculture, Alexandria University** · drsystem.touristella.com
  - Manages faculty staff records and academic affairs in one platform.

Live systems require login; demo access and walkthroughs are available upon request.
